ASPicDB

RRID:SCR_002102

Type: Tool

Proper Citation

ASPicDB (RRID:SCR_002102)

Resource Information

URL: <http://srv00.recas.ba.infn.it/ASPicDB/>

Proper Citation: ASPicDB (RRID:SCR_002102)

Description: A database to access reliable annotations of the alternative splicing pattern of human genes, obtained by ASPic algorithm (Castrignano et al. 2006), and to the functional annotation of predicted isoforms. Users may select and extract specific sets of data related to genes, transcripts and introns fulfilling a combination of user-defined criteria. Several tabular and graphical views of the results are presented, providing a comprehensive assessment of the functional implication of alternative splicing in the gene set under investigation. ASPicDB also includes information on tissue-specific splicing patterns of normal and cancer cells, based on available EST data and their library source annotation.

Abbreviations: ASPicDB

Synonyms: Alternative Splicing Prediction Data Base, ASPicDB - A Database tool for alternative splicing analysis

Resource Type: data or information resource, database

Defining Citation: [PMID:21051348](#), [PMID:18388144](#)

Keywords: annotation, splicing pattern, gene, transcript, intron, protein, variant, alternative splicing, splicing, blast, exon, u2, u12, isoform

Related Condition: Normal, Cancer

Availability: Free, Freely available

Resource Name: ASPicDB

Resource ID: SCR_002102

Alternate IDs: OMICS_01882

Old URLs: <http://srv00.ibbe.cnr.it/ASPicDB/>

Record Creation Time: 20220129T080211+0000

Record Last Update: 20260829T182921+0000

Ratings and Alerts

No rating or validation information has been found for ASPicDB.

No alerts have been found for ASPicDB.
