Proper Citation: UK DNA Banking Network (RRID:SCR_010619)

Description: THIS RESOURCE IS NO LONGER IN SERVICE, documented on October 6, 2011. A project to collect, store and study DNA samples from tens of thousands of healthy volunteers and patients with diseases of major public importance. It aims to identify genes that are risk factors for the conditions. The network consists of 13 collections led by different clinicians throughout the UK. At its heart is an archive infrastructure which manages the DNA and the information associated with it. The European Collection of Cell Cultures in Porton Down handles the blood, peripheral blood lymphocytes and EBV-transformed cell lines, while the Centre for Integrated Genomic Medical Research at Manchester University manages the DNA. These banked samples are available to UK and international researchers, who can examine data and set up collaborative work by registering at the DNA Network's website. The conditions for which samples are currently collected and stored are: Acute leukemia, Asthma and eczema, Late onset Alzheimer's disease, Breast cancer, Colorectal cancer, Coronary artery disease, Glomerulonephritis, Hypertension, Age-related macular degeneration, Multiple sclerosis, Parkinson's disease, Type 2 diabetes, Unipolar depression.

Abbreviations: UDBN

Resource Type: biomaterial supply resource, material resource

Keywords: alzheimer, gene, dna, peripheral blood lymphocyte, ebv-transformed cell line

Related Condition: Leukemia, Asthma, Eczema, Alzheimer's disease, Breast cancer, Colorectal cancer, Coronary artery disease, Glomerulonephritis, Hypertension, Age-related macular degeneration, Multiple Sclerosis, Parkinson's disease, Type 2 diabetes, Unipolar depression, Cancer

Funding: MRC

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: UK DNA Banking Network

Resource ID: SCR_010619

Alternate IDs: nlx_60877

Record Creation Time: 20220129T080259+0000

Record Last Update: 20260821T042815+0000

Ratings and Alerts

No rating or validation information has been found for UK DNA Banking Network.

No alerts have been found for UK DNA Banking Network.
