Proper Citation: New York University School of Medicine Langone Health Preclinical Imaging Laboratory (RRID:SCR_017937)

Description: Core provides investigators with access to imaging technologies and strategies to image live animals on organ, tissue, cell, or molecular level. Core for studying and monitoring disease in small living subjects. Performs noninvasive and nonlethal three-dimensional imaging. Equipped with instruments for micromagnetic resonance imaging, micropositron emission tomography, X-ray microcomputed tomography, bioluminescence and fluorescence scanning, and high-frequency ultrasound.

Synonyms: NYU Langone Preclinical Imaging Laboratory

Resource Type: access service resource, core facility, service resource

Keywords: Image, live, animal, organ, cell, molecular, level, monitoring, disease, small, noninvasive, 3D, imaging, micromagnetic, resonance, micropositron, emission, tomography, X-ray, microcomputed, tomography, bioluminescence, fluorescence, scanning, ultrasound, service, core, ABRF

Availability: Open

Resource Name: New York University School of Medicine Langone Health Preclinical Imaging Laboratory

Resource ID: SCR_017937

Alternate IDs: ABRF_830
