Colorado University at Boulder Soft Materials Research Center X-Ray Diffraction Facility Core Facility

RRID:SCR_019304

Type: Tool

Proper Citation

Colorado University at Boulder Soft Materials Research Center X-Ray Diffraction Facility Core Facility (RRID:SCR_019304)

Resource Information

URL: http://smrc.colorado.edu/facilities/xrd_saxs.html

Proper Citation: Colorado University at Boulder Soft Materials Research Center X-Ray Diffraction Facility Core Facility (RRID:SCR_019304)

Description: Provides cutting edge capabilities for probing large lengthscale structures such as polymers, biological macromolecules, meso- and nano-porous materials, and molecular self-assemblies. Techniques that can be applied to study materials include SAXS, GISAXS, WAXS, and GIWAXS. The 30W Xenocs Genix 3D x-ray source and state-of-the-art Dectris Eiger R 1M detector provide an excellent way to probe almost any material of interest. In-situ x-ray studies may be carried out using temperature controlled sample holders in both SAXS and GISAXS modes..

Abbreviations: SAXS

Synonyms: Soft Materials Research Center X-Ray Diffraction Facility

Resource Type: access service resource, core facility, service resource

Keywords: USEDit, ABRF, probing large lengthscale structures, polymers, biological macromolecules, meso- and nano-porous materials, molecular self-assemblies,

Resource Name: Colorado University at Boulder Soft Materials Research Center X-Ray Diffraction Facility Core Facility

Resource ID: SCR_019304

Alternate IDs: ABRF_1103

Alternate URLs: <https://coremarketplace.org/?FacilityID=1103>

Record Creation Time: 20220129T080344+0000

Record Last Update: 20260904T000829+0000

Ratings and Alerts

No rating or validation information has been found for Colorado University at Boulder Soft Materials Research Center X-Ray Diffraction Facility Core Facility.

No alerts have been found for Colorado University at Boulder Soft Materials Research Center X-Ray Diffraction Facility Core Facility.
