GenAEx

RRID:SCR_021102

Type: Tool

Proper Citation

GenAEx (RRID:SCR_021102)

Resource Information

URL: <https://biology-assets.anu.edu.au/GenAEx/Welcome.html>

Proper Citation: GenAEx (RRID:SCR_021102)

Description: Software tool as cross platform package for population genetic analyses that runs within Microsoft Excel. Offers analysis of diploid codominant, haploid and binary genetic loci and DNA sequences. Originally developed as teaching tool to facilitate teaching population genetic analysis at graduate level.

Synonyms: GenAEx 6.5, Genetic Analysis in Excel

Resource Type: data analysis software, data processing software, software application, software resource, software toolkit

Defining Citation: [PMID:22820204](#)

Keywords: population genetic analyses, Microsoft Excel, diploid codominant analysis, haploid genetic loci, binary genetic loci, DNA sequences analysis

Availability: Free, Available for download, Freely available

Resource Name: GenAEx

Resource ID: SCR_021102

Record Creation Time: 20220129T080353+0000

Record Last Update: 20260829T182703+0000

Ratings and Alerts

No rating or validation information has been found for GenAEx.

Warning: Warning: PCA results may be sensitive to the sample size, population composition, and the number of columns, in which case the results will not be reliable, robust, nor replicable and should not be used to draw conclusions.
