Proper Citation: Cognitive Neuroscience Society (RRID:SCR_001990)

Description: The Cognitive Neuroscience Society (CNS) is committed to the development of mind and brain research aimed at investigating the psychological, computational, and neuroscientific bases of cognition. Since its founding in 1994, the Society has been dedicated to bringing its 2000 worldwide members the latest research and dialogues in order to facilitate public, professional and scientific discourse. The term cognitive neuroscience has now been with us for almost three decades, and identifies an interdisciplinary approach to understanding the nature of thought. Our members, who are engaged in research focused on elucidating the biological underpinnings of mental processes, form a network of scientists and scholars working at the interface of mind, brain and behavior research. The findings of this research are presented at our member-supported annual scientific conference. The three-day program of plenary speakers, symposia, posters and special events covers all aspects of cognitive neuroscience research. The Society also disseminates information regarding employment opportunities, training fellowships, research grants, and information on related scientific conferences in its monthly newsletter. Our members can receive the Journal of Cognitive Neuroscience at a substantial discount.

Synonyms: CNS

Resource Type: training resource, data or information resource, people resource, portal, meeting resource, job resource, community building portal

Keywords: behavior, brain, cognition, cognitive neuroscience, computational, human, mind, neuroscientific, psychological, research

Resource Name: Cognitive Neuroscience Society

Resource ID: SCR_001990

Alternate IDs: nif-0000-10675

Record Creation Time: 20220129T080210+0000

Record Last Update: 20260810T040319+0000
