TARQUIN

RRID:SCR_002598

Type: Tool

Proper Citation

TARQUIN (RRID:SCR_002598)

Resource Information

URL: <http://tarquin.sourceforge.net/>

Proper Citation: TARQUIN (RRID:SCR_002598)

Description: An analysis tool for automatically determining the quantities of molecules present in NMR spectroscopic data. The intended purpose of TARQUIN is to aid the characterisation of pathologies, in particular brain tumours, both non-invasively with in-vivo ¹H MRS and ex-vivo with ¹H HR-MAS. TARQUIN has the following features: * Free to use and modify under the GPL licence. * Based on a flexible time-domain fitting routine designed to give accurate rapid and automated quantitation for routine analysis. * Cross platform, works on Windows, Linux and OSX. * Comes packaged with a quantum mechanically based metabolite simulator to allow basis set construction optimised for the investigation of particular pathologies sequence parameters. * Includes both GUI and command line interface for one-off and batch analyses.

Abbreviations: TARQUIN

Synonyms: TARQUIN MRS analysis package

Resource Type: software application, software resource

Defining Citation: [PMID:20878762](#)

Keywords: magnetic resonance, mrs, mas, molecule, nmr spectroscopy

Availability: Free, Available for download, Freely available

Resource Name: TARQUIN

Resource ID: SCR_002598

Alternate IDs: nlx_156002

Alternate URLs: <http://www.nitrc.org/projects/tarquin>

License: GNU General Public License

Record Creation Time: 20220129T080214+0000

Record Last Update: 20260805T044041+0000

Ratings and Alerts

No rating or validation information has been found for TARQUIN.

No alerts have been found for TARQUIN.
