Proper Citation: European Federation of Allergy and Airways Diseases Patients Associations (RRID:SCR_003855)

Description: A non-profit network of allergy, asthma and Chronic Obstructive Pulmonary Disease (COPD) patients' organisations, representing 35 national associations in 22 countries and over 400,000 patients. They're dedicated to making Europe a place where people with allergies, asthma and COPD have the best quality care and a safe environment, live uncompromised lives and are actively involved in all decisions influencing their health. They work on behalf of patients to: * Promote awareness of allergies and airways diseases among policymakers and the general public. * Broaden our understanding of these conditions by increased collaboration between national patient associations. * Share knowledge and experience to beneficially educate both the public and EFA members. * Promote patient concerns and opinions within the European institutions and enable national patient associations to gain representation at EU level. * Improve their health and quality of life.

Abbreviations: EFA
