Type: Tool

Proper Citation

Simulations Plus (RRID:SCR_003946)

Resource Information

URL: http://www.simulations-plus.com/

Proper Citation: Simulations Plus (RRID:SCR_003946)

Description: Commercial developer of Absorption, Distribution, Metabolism, Excretion and Toxicity (ADMET) and Physiologically-Based Pharmacokinetic (PBPK) modeling and simulation software for the pharmaceutical and biotechnology, industrial chemical, cosmetic, herbicide, and food ingredient industries. Their software allows pharmaceutical scientists to predict certain key potential endpoints and dynamics, in silico, thereby reducing research & development costs and helping clients make better projects decisions sooner. Consulting services: Their team of highly-skilled scientists is available to assist with your discovery and development activities on a project-by-project basis. They now offer expanded pharmacodynamic modeling services, NONMEM analysis, and regulatory report writing assistance. Their ultimate goal is to develop tools and systems which bridge PBPK modeling with clinical trial data analysis. Training workshops & User Groups: they offer hands-on introductory and advanced training workshops in the United States, Europe, and Asia throughout the year.

Synonyms: Simulations Plus Inc.

Resource Type: commercial organization

Keywords: pharmaceutical, modelling, simulation, pharmacodynamic, biotechnology, chemical, cosmetic, food ingredient, herbicide, drug development, drug, pharmacokinetic

Availability: License required

Resource Name: Simulations Plus

Resource ID: SCR_003946

Alternate IDs: nlx_158339, ISNI: 0000 0004 0506 5380, grid.418738.1, Wikidata: Q7521341

Alternate URLs: https://ror.org/02p0yhm49

Record Creation Time: 20220129T080221+0000

Record Last Update: 20260808T185813+0000

Ratings and Alerts

No rating or validation information has been found for Simulations Plus.

No alerts have been found for Simulations Plus.
