Proper Citation: Thrasos Therapeutics (RRID:SCR_004052)

Description: Private, clinical stage biotherapeutics company focused on delivering new solutions to individuals affected by kidney disease. They are committed to developing novel approaches to protect, treat and restore kidney function for this patient group. Company has designed specific class of peptide compounds that have shown excellent results in controlling experimental kidney diseases, notably, models of diabetic nephropathy (kidney damage associated with diabetes), and acute kidney injury. These proprietary peptides may therefore be able to prevent and treat acute kidney injury, as well as slow and possibly reverse the progression of diabetic nephropathy. They act to control apoptosis (programmed cell death), inflammation and fibrosis (formation of scar tissue).

Abbreviations: Thrasos

Synonyms: Thrasos Innovation Inc.

Resource Type: commercial organization

Keywords: Controlling experimental kidney diseases, biotherapeutics, clinical, peptide, treat acute kidney injury, reverse progression diabetic nephropathy

Related Condition: Kidney disease, Acute kidney injury, Diabetic nephropathy, Chronic kidney disease

Resource Name: Thrasos Therapeutics

Resource ID: SCR_004052

Alternate IDs: nlx_158489
