Description: The Southeast Tissue Alliance recovers tissues and provides them to leading tissue processing companies. One of the most important aspects of this process is ensuring that donor families understand tissue donation and are fully supported as they make the gifts that change the lives of others. To promote tissue donation, we also work throughout the community to increase awareness, educate health professionals and further donation-related research. The Southeast Tissue Alliance is accredited by the American Association of Tissue Banks, which ensures that our services are of the highest quality and are provided in the most professional manner.
