Description: The Oklahoma Brain Tumor Foundation (OKBTF) is a nonprofit organization that provides education, advocacy and support for Oklahomans with brain tumors and their families to improve their quality of life and help find a cure. Founded by Nancy Thomason after the death of her son Cade Thomason to a brain stem PNET tumor on February 17, 2000, she vowed to fight the disease in honor and memory of her son Cade. OKBTF is dedicated to meeting the needs of Oklahoma families, caregivers and patients affected by primary brain or central nervous system tumors. We work to provide for needs through education, advocacy, research and service. Whatever your needs, whether financial, physical, mental or spiritual, we will work with you to fight the battle. Here you will find many of the services we offer in support of families just like yours, who are confused, hurting and just wanting straight answers. Feel free to browse around, get to know us, see what we are doing to help and send us your comments or questions... We are here for you.
