PRISM - Pair Read Informed Split Mapper

RRID:SCR_004812

Type: Tool

Proper Citation

PRISM - Pair Read Informed Split Mapper (RRID:SCR_004812)

Resource Information

URL: <http://compbio.cs.toronto.edu/prism/>

Proper Citation: PRISM - Pair Read Informed Split Mapper (RRID:SCR_004812)

Description: Software for split read (reads which span across a structural variant -- SV) mapping and SV calling from the mapping result. It is able to detect small insertions and arbitrary size deletions, inversions and tandem duplications with the direction of discordant read pairs. PRISM_CTX is a tool for detecting inter-chromosome trans-location events.

Abbreviations: PRISM (Pair Read Informed Split Mapper)

Synonyms: PRISM (Pair Read Informed Split Mapper), Pair Read Informed Split Mapper

Resource Type: software resource

Defining Citation: [PMID:22851530](#)

Keywords: structural variant, split read mapping, insertion, deletion, inversion, tandem duplication, discordant read pair, chromosome, trans-location event, duplication, breakpoint, genome

Availability: Free, Public

Resource Name: PRISM - Pair Read Informed Split Mapper

Resource ID: SCR_004812

Alternate IDs: OMICS_02288

Record Creation Time: 20220129T080226+0000

Record Last Update: 20260801T190241+0000

Ratings and Alerts

No rating or validation information has been found for PRISM - Pair Read Informed Split Mapper.

No alerts have been found for PRISM - Pair Read Informed Split Mapper.
