Description: A privately held spinal company that is driving significant technological advancements across a complete suite of spinal products. Founded in 2003, Globus' single-minded focus on advancing spinal surgery has made it the fastest growing company in the history of orthopedics. Globus is driven to utilize superior engineering and technology to achieve pain free, active lives for all patients with spinal disorders. The ultimate goal at Globus is to deliver innovation by utilizing superior engineering and technology to help improve patients' lives. This clinical inspiration is central to every endeavor we undertake. We have developed a Spine Innovation Engine to focus our efforts on delivering industry leading solutions to surgeons and their patients. Our Spine Innovation Engine has developed a portfolio that includes a comprehensive line of technologically-advanced spine products. To date we have released over 50 major products and have over 30 more in various stages of development. Clinical Studies are the foundation for advancing innovative spine care and Globus is committed to a robust investment into prospective and retrospective clinical trials to evaluate the safety and efficacy of our products. Globus is currently conducting several FDA-approved Investigational Device Exemption (IDE) clinical studies.

Abbreviations: Globus

Synonyms: Globus Medical

Resource Type: commercial organization

Keywords: minimally invasive, motion preservation, cervical, intervertebral fusion, thoracolumbar, biomaterial, spinal cord, orthopedics

Related Condition: Spinal cord disorder

Resource Name: Globus Medical, Inc.

Resource ID: SCR_004836

Alternate IDs: nlx_81975, ISNI: 0000 0004 0376 7450, grid.459811.0

Alternate URLs: <https://ror.org/04x4hjj39>

Record Creation Time: 20220129T080226+0000
