Proper Citation: OECI - Organisation for European Cancer Institutes (RRID:SCR_005521)

Description: The OECI is a non-government, non-profit organization founded in Vienna in 1979. The primary objectives of its 68 associated European Cancer Centres are to improve communication and to increase collaborative activities among European cancer institutes. These goals are achieved by promoting and strengthening Comprehensive Cancer Centres in Europe to reduce cancer incidence and mortality, and supporting cancer patients. The OECI leadership has demonstrated its active involvement in the promotion of a European approach to cancer management as a partner with UICC in the series of European Cancer Management Meetings organized with support from the European Union (Antwerp, 2000; Paris 2001). OECI members are leading Cancer Centres throughout Europe, encompassing the full spectrum of Cancer activities and national considerations. In order to facilitate the activities of their members and the definition of common programs of international interest and to facilitate the participation in European projects and programs the GEIE-LINC and the OECI in 2001 decided to set-up 9 specific Working Groups active in the following fields: Guidelines, Registration & Data Evaluation, Cost-Benefit, Pre-Clinical and Clinical Research, Education, Communication, Telematics & Telemedicine, Pathology, New Technologies
