Proper Citation: UCSF Helen Diller Family Comprehensive Cancer Center Biostatistics Core (RRID:SCR_005701)

Description: The Biostatistics Core provides statistical support for cancer-related research at UCSF, focusing particularly on applications in clinical trials and population studies. The Computational Biology Core supports applications to genomics, genetics and molecular biology. Core faculty have expertise in study design, protocol and proposal development and review, data analysis, and publication of results. Support for Cancer Center investigators participating in established Site Committees is typically handled by the faculty member assigned to that committee. Other requests can be directed to the consulting service request page maintained by the UCSF Clinical & Translational Science Institute (CTSI). These requests will then be assigned to a Core faculty member. Basic consulting services are generally provided free of charge to Cancer Center Members. Members requiring frequent assistance are encouraged to provide regular salary support to a Core statistician when possible to support more extensive requests and for long-term projects. Services: * Study Design * Guidance on Study Conduct * Data Analysis and Reporting of Study Results * Teaching resources

Abbreviations: UCSF Helen Diller Family Comprehensive Cancer Center Biostatistics Core

Synonyms: UCSF Helen Diller Family Comprehensive Cancer Center Biostatistics Computational Biology Core, UCSF Helen Diller Family Comprehensive Cancer Center Biostatistics and Computational Biology Core

Resource Type: production service resource, training service resource, service resource, data analysis service, analysis service resource

Related Condition: Cancer

Resource Name: UCSF Helen Diller Family Comprehensive Cancer Center Biostatistics Core

Resource ID: SCR_005701

Alternate IDs: nlx_149150
