Physician Data Query (RRID:SCR_006833)

Resource Information

URL: <http://cancer.gov/cancertopics/pdq/cancerdatabase>

Proper Citation: Physician Data Query (RRID:SCR_006833)

Description: NCI's comprehensive cancer database that contains summaries on a wide range of cancer topics; a registry of 8,000+ open and 19,000+ closed cancer clinical trials from around the world; a directory of professionals who provide genetics services; the NCI Dictionary of Cancer Terms, with definitions for 6,800+ cancer and medical terms; and the NCI Drug Dictionary, which has information on 2,300+ agents used in the treatment of cancer or cancer-related conditions. The PDQ cancer information summaries are peer reviewed and updated monthly by six editorial boards comprised of specialists in adult treatment, pediatric treatment, supportive care, screening and prevention, genetics, and complementary and alternative medicine. The Boards review current literature from more than 70 biomedical journals, evaluate its relevance, and synthesize it into clear summaries. Many of the summaries are also available in Spanish.

Abbreviations: PDQ

Synonyms: PDQ - NCI's Comprehensive Cancer Database

Resource Type: data or information resource, ontology, people resource, controlled vocabulary, database, registry, clinical trial

Keywords: adult, pediatric, child, alternative, breast, clinical trial, colorectal, hypercalcemia, legal, lung, medicine, medullary, nausea, ovarian, pain, pathophysiology, pediatric, pharmaceutical, physician, prevention, prognosis, prostate, psychosocial, query, risk factor, screening, social, syndrome, thyroid, treatment, umls, genetics, medical, drug, peer review

Related Condition: Cancer, Cancer-related condition

Funding: NCI

Resource Name: Physician Data Query

Resource ID: SCR_006833

Alternate IDs: nif-0000-21318

Record Creation Time: 20220129T080238+0000

Record Last Update: 20260803T040458+0000
