Charged Fluid Model for Brain Image Segmentation

RRID:SCR_008281

Type: Tool

Proper Citation

Charged Fluid Model for Brain Image Segmentation (RRID:SCR_008281)

Resource Information

URL: <http://loni.usc.edu/Software/CFMBIS>

Proper Citation: Charged Fluid Model for Brain Image Segmentation (RRID:SCR_008281)

Description: A computer-aided tool for 2-D brain image segmentation using an electrostatic charged fluid model. It allows researchers to perform 2-D image segmentation in brain MR image data. Each interactive visualization element corresponding to the embedded function enables the end user to easily manipulate the image data. The visual environment of this tool provides an easy-to-use means of inspection and interpretation of image data using the LONI jViewbox library. CFMBIS uses the Java Image I/O plug-in architecture to read a wide variety of common medical image file formats.

Abbreviations: CFMBIS

Resource Type: segmentation software, software resource, data processing software, software application, image analysis software

Keywords: plugin, software, 2D image, brain image segmentation, brain MR image, image analysis, segmentation

Funding: NIBIB 9P41EB015922-15;
NCRR 2-P41-RR-013642-15;
NCRR U54 RR021813

Availability: Available for educational and research purposes only

Resource Name: Charged Fluid Model for Brain Image Segmentation

Resource ID: SCR_008281
