Proper Citation: Caribbean Primate Research Center (RRID:SCR_008345)

Description: Center for the study of non-human primates. Its mission is the study and use of non-human primates as models for studies of social and biological interactions and for the discovery of methods of prevention, diagnosis and treatment of diseases that afflict humans. Through the stewardship of three unique facilities—Cayo Santiago Field Station, Sabana Seca Field Station, and the Laboratory of Primate Morphology supports a diverse range of research programs that enhance understanding of primate biology and behavior, with direct applications in biomedical and translational research.

Abbreviations: CPRC

Synonyms: Caribbean Primate Research Center Program

Resource Type: biomaterial supply resource, organism supplier, material resource

Keywords: NPRC, NPRC Consortium, ORIP, environment, genetic, antigen, behavior, biological, biomedical, birth, blood, conception, dengue, disease, human, immune system, laboratory, macaca mulatta, macaque, model, monkey, morphology, movement, pathology, primate, reproductive biology, researcher, rh, rhesus, scientific, serological, siv, skeletal system, vaccine, variation, virology

Funding: NIH Office of the Director P40 OD012217

Resource Name: Caribbean Primate Research Center

Resource ID: SCR_008345

Alternate IDs: nif-0000-25870

Alternate URLs: <https://orip.nih.gov/comparative-medicine/programs/vertebrate-models>

Record Creation Time: 20220129T080246+0000

Record Last Update: 20260801T190351+0000

Ratings and Alerts

No rating or validation information has been found for Caribbean Primate Research Center.

No alerts have been found for Caribbean Primate Research Center.
