Proper Citation: GAIA (RRID:SCR_009182)

Description: Web-based application for testing for locus-locus interaction using genetic association. It is based upon the case-control study design and is designed so that non-specialists may routinely apply tests for interaction. GAIA allows simple testing of both additive and additive plus dominance interaction models and includes permutation testing to appropriately correct for multiple testing. The application is useful for both candidate gene based studies and genome-wide association studies. For large scale studies GAIA includes a screening approach which prioritizes loci for further interaction analysis. (entry from Genetic Analysis Software), THIS RESOURCE IS NO LONGER IN SERVICE. Documented on September 16,2025.

Abbreviations: GAIA

Synonyms: Genetic Association Interaction Analysis

Resource Type: software resource, software application

Defining Citation: [DOI:10.1186/1471-2350-7-34](https://doi.org/10.1186/1471-2350-7-34)

Keywords: gene, genetic, genomic, perl, r, web-based

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: GAIA

Resource ID: SCR_009182

Alternate IDs: nlx_154320

Old URLs: <http://www.bbu.cf.ac.uk/html/research/biostats.htm>

Record Creation Time: 20220129T080251+0000

Record Last Update: 20260801T191057+0000

Ratings and Alerts

No rating or validation information has been found for GAIA.

No alerts have been found for GAIA.
