Proper Citation: Wyss Institute Materials Characterization Core (RRID:SCR_010213)

Description: The Wyss Institute Materials Characterization Core is dedicated to promoting leading edge biologically inspired research by providing users with a wide range of state-of-the-art materials characterization equipment and analysis software. These tools help support the characterization of a material's unique physical, chemical, and mechanical properties. The Materials Characterization Core team provides exceptional hands on training, method development, and technical expertise. We also proactively strive to introduce the latest innovations in materials characterization to the Wyss Institute community and our affiliated partners. Our current techniques include chromatography, mass spectrometry, UV-Vis spectroscopy, particle sizing, quartz crystal microbalance, electrochemical testing, rheology, and nanoindentation.

Resource Type: service resource, access service resource, core facility

Resource Name: Wyss Institute Materials Characterization Core

Resource ID: SCR_010213

Alternate IDs: nlx_156692

Record Creation Time: 20220129T080257+0000

Record Last Update: 20260804T043432+0000

Ratings and Alerts

No rating or validation information has been found for Wyss Institute Materials Characterization Core.

No alerts have been found for Wyss Institute Materials Characterization Core.
