**Proper Citation:** Meharry Proteomics Core (RRID:SCR\_012179)

**Description:** Core facility that aids investigators and trainees with high performance computation in proteomics, as well as other omics type applications needing efficient analysis of large-scale biological data sets. The ability to incorporate proteomics into translational and clinical biomedical research is critical for the discovery of therapeutic interventions and high fidelity biomarkers of disease and response to therapy. The Core provides state-of-the-art services, training, and bioinformatics-driven data analysis to the Meharry translational research community.
