Description: To perform research into cancer is the task of the German Cancer Research Center (Deutsches Krebsforschungszentrum, DKFZ). DKFZ is the largest biomedical research institute in Germany and a member of the Helmholtz Association of National Research Centers. In over 70 divisions and research groups, our more than 2,500 employees, of which more than 1,000 are scientists, are investigating the mechanisms of cancer, are identifying cancer risk factors and are trying to find strategies to prevent people from getting cancer. They are developing novel approaches to make tumor diagnosis more precise and treatment of cancer patients more successful.
