Proper Citation: GLOM MAP is a toolbox written for the MATLAB development enviroment (RRID:SCR_013274)

Description: :GLOM MAP was written for MATLAB, it works equally as well on the PC as on the MAC. GLOM MAP consists of two components: 1. OBS can be used to map the location of glomeruli in transverse sections of the olfactory bulb. 2. GDB can be used to transform the OBS data and to analyze the collected glomerular activity data. This data can be scored and mapped in the radial and antero-posterior dimensions as discussed in Salcedo et al, 2005. :

Synonyms: GLOM MAP

Resource Type: data processing software, image processing software, software application, software resource

Resource Name: GLOM MAP is a toolbox written for the MATLAB development enviroment

Resource ID: SCR_013274

Alternate IDs: nif-0000-00360

Old URLs:
