Proper Citation: PubPeer (RRID:SCR_013771)

Description: A software application that enables users to peer review published research articles. Users must have a previous publication and an email address at an academic or research institution. Comments can be made in any article published with a digital object identifier, PubMed identifier or a preprint in arXiv. Authors are notified of any comments their paper has received and may respond to comments.

Resource Type: software resource

Keywords: web application, peer review

Availability: free

Resource Name: PubPeer

Resource ID: SCR_013771

License URLs: <https://pubpeer.com/tos>

Record Creation Time: 20220129T080317+0000

Record Last Update: 20260801T190504+0000

Ratings and Alerts

No rating or validation information has been found for PubPeer.

No alerts have been found for PubPeer.

Data and Source Information

Usage and Citation Metrics

We found 37 mentions in open access literature.

Listed below are recent publications. The full list is available at [ASWG](#) .

Aquarius R, et al. (2025) Tackling paper mills requires us to prevent future contamination and clean up the past - the case of the journal Bioengineered. *Bioengineered*, 16(1), 2542668.

Terré A, et al. (2025) Concordance between European medicine agency good clinical practice inspections and medical literature: a meta-research survey. *BMC medicine*, 23(1), 674.

Davidson M, et al. (2025) Post-publication peer review and the identification of methodological and reporting issues in COVID-19 trials: a qualitative study. *BMJ evidence-based medicine*, 30(4), 233.

Ansari N, et al. (2025) The top 100 papers on prostate cancer-associated exosomes on social media: an altmetric study from the MENA region. *Frontiers in oncology*, 15, 1481406.

Mijatovi? A, et al. (2025) How good are medical students and researchers in detecting duplications in digital images from research articles: a cross-sectional survey. *Research integrity and peer review*, 10(1), 14.

Shivantha S, et al. (2025) Publishers' Response to Post-Publication Concerns About Clinical Research in Women's Health. *BJOG : an international journal of obstetrics and gynaecology*, 132(7), 892.

Aquarius R, et al. (2025) High prevalence of articles with image-related problems in animal studies of subarachnoid hemorrhage and low rates of correction by publishers. *PLoS biology*, 23(10), e3003438.

Kennedy JE, et al. (2024) Addressing researcher fraud: retrospective, real-time, and preventive strategies-including legal points and data management that prevents fraud. *Frontiers in research metrics and analytics*, 9, 1397649.

Vadhera AS, et al. (2024) The Most Impactful Articles on the Shoulder Labrum From the United States or Europe, and Decreased Level of Evidence Is Associated With Increased Altmetric Attention Score. *Arthroscopy, sports medicine, and rehabilitation*, 6(1), 100876.

Pathmendra P, et al. (2024) Verification of nucleotide sequence reagent identities in original publications in high impact factor cancer research journals. *Naunyn-Schmiedeberg's archives of pharmacology*, 397(7), 5049.

Wittau J, et al. (2024) How to fight fake papers: a review on important information sources and steps towards solution of the problem. *Naunyn-Schmiedeberg's archives of pharmacology*, 397(12), 9281.

Llewellyn N, et al. (2024) Translation in action: Influence, collaboration, and evolution of COVID-19 research with Clinical and Translational Science Awards consortium support. *Clinical and translational science*, 17(1), e13700.

Zhu H, et al. (2024) Citations of microRNA Biomarker Articles That Were Retracted: A Systematic Review. *JAMA network open*, 7(3), e243173.

Porter SJ, et al. (2024) Identifying fabricated networks within authorship-for-sale enterprises. *Scientific reports*, 14(1), 29569.

Brewin CR, et al. (2023) Inaccuracy in the Scientific Record and Open Postpublication Critique. *Perspectives on psychological science : a journal of the Association for Psychological Science*, 18(5), 1244.

Frank F, et al. (2023) Raising concerns on questionable ethics approvals - a case study of 456 trials from the Institut Hospitalo-Universitaire Méditerranée Infection. *Research integrity and peer review*, 8(1), 9.

Llewellyn NM, et al. (2022) Predicting citation impact from altmetric attention in clinical and translational research: Do big splashes lead to ripple effects? *Clinical and translational science*, 15(6), 1387.

DuPre E, et al. (2022) Beyond advertising: New infrastructures for publishing integrated research objects. *PLoS computational biology*, 18(1), e1009651.

Young DA, et al. (2022) Osteoarthritis year in review: genetics, genomics, epigenetics. *Osteoarthritis and cartilage*, 30(2), 216.

Balistreri WF, et al. (2022) Academic Skills: Publications. *Pediatric research*, 92(5), 1247.
