## CDE Tool

RRID:SCR\_013981

Type: Tool

### Proper Citation

CDE Tool (RRID:SCR\_013981)

### Resource Information

**URL:** <http://www.pgbovine.net/cde.html>

**Proper Citation:** CDE Tool (RRID:SCR\_013981)

**Description:** A software application which automatically packages up the code, data, and environment required to deploy and run Linux programs on other machines without any installation or configuration. Users can prepend any set of Linux commands with the "cde" binary, and CDE will run them and automatically package up all files accessed during execution. A package is a directory that can be compressed and delivered to any x86-Linux machine and contains all the files and environment variables required to run the original commands. After receiving the package, the user can run those same commands from within the package on any modern x86-Linux distro., THIS RESOURCE IS NO LONGER IN SERVICE. Documented on September 16,2025.

**Synonyms:** CDEpack

**Resource Type:** systems interoperability software, software resource, software application

**Keywords:** software application, CDE, Linux, systems interoperability software

**Availability:** THIS RESOURCE IS NO LONGER IN SERVICE
