Proper Citation: JMP (RRID:SCR_014242)

Description: Statistical software that uses dynamic graphics rather than tables or graphs to visualize raw data. More specific versions of JMP are available for statistical analyses, clinical work, and genomics. Features include statistical modeling, data cleanup, automation and scripting, and experimental design.

Resource Type: software resource, data visualization software, data processing software, data management software, software application

Keywords: statistical software, data visualization, data management, graphic data visualization

Availability: Pay for product, Free trial download is available

Resource Name: JMP

Resource ID: SCR_014242
