FreezeFrame

RRID:SCR_014429

Type: Tool

Proper Citation

FreezeFrame (RRID:SCR_014429)

Resource Information

URL: <http://actimetrics.com/products/freeze-frame/>

Proper Citation: FreezeFrame (RRID:SCR_014429)

Description: A video-based system to detect animal movement in fear conditioning experiments, as well as movements in learned helplessness experiments. FreezeFrame can detect animal movements (as small as 1mm) and actions, including grooming, sniffing, turning, and rearing. It can also collect and process data for learned helplessness experiments, such as Tail Suspension and the Porsolt Forced Swim Test. This software can monitor animals for up to 15 times per second.

Synonyms: FreezeView

Resource Type: data acquisition software, software resource, software application, data processing software

Keywords: learned helplessness, fear conditioning, animal, movement, video system

Availability: Public, Commercial

Resource Name: FreezeFrame

Resource ID: SCR_014429

Record Creation Time: 20220129T080320+0000

Record Last Update: 20260808T190024+0000

Ratings and Alerts

No rating or validation information has been found for FreezeFrame.

No alerts have been found for FreezeFrame.
