Proper Citation: ENIGMA-DTI Pipeline (RRID:SCR_014649)

Description: Pipeline which provides tools to extract whole-brain average and regional measurements from DTI images including FA, AD, RD and MD. Protocols for preprocessing, ENIGMA-DTI processing (skeletonization and ROI extraction), and GWAS analysis are available. Software tools used for each process are listed within the protocols.

Synonyms: ENIGMA-DTI protocol, ENIGMA DTI pipeline, ENIGMA DTI protocol

Resource Type: protocol

Keywords: dti, enigma, protocol, pipeline
