Proper Citation: SPARTAN (RRID:SCR_014901)

Description: Software program for determining molecular structure and calculating chemical properties. It has a graphical interface and accurate computational models that are compatible with the iPad, iPhone and iPod Touch. When combined with the Spartan'16 Parallel Suite, this enables the first fully-functional open-ended molecular modeling environment on popular mobile technology.

Resource Type: software resource, software application

Keywords: molecular structure, chemical properties, modeling, mobile technology, integration

Availability: Commercial

Resource Name: SPARTAN

Resource ID: SCR_014901

Record Creation Time: 20220129T080323+0000

Record Last Update: 20260801T191106+0000
