Proper Citation: Scripps Research Institute - Florida Core Microscopy Core Facility (RRID:SCR_017848)

Description: Core provides researchers with equipment and expertise required for multi-dimensional imaging of cells and tissues at high resolution and to perform quantitative image analysis. Resources include widefield, confocal, multi-photon, TIRF, super-resolution and electron microscopy, as well as equipment for live cell imaging and image analysis. Services include sample preparation, imaging, molecular localization, and image analysis. Provides training, technical support, sample preparation, imaging assistance, collaboration and consultation.
