## Maine Medical Center Research Institute Viral Vector Core Facility

RRID:SCR_017882
Type: Tool

### Proper Citation

Maine Medical Center Research Institute Viral Vector Core Facility (RRID:SCR_017882)

### Resource Information

**URL:** http://mmcri.org/ns/?page_id=221

**Proper Citation:** Maine Medical Center Research Institute Viral Vector Core Facility (RRID:SCR_017882)

**Description:** Core provides viral vector services dedicated to development and production of viral vectors for angiogenesis, stem cell and regenerative medicine and clinical renal research. Viral vectors are produced in dedicated BL2 facility within MMCRI building. Vector systems currently being used include adenovirus, retrovirus and lentivirus. Services Available:Transfection and transduction of gene-specific viral DNA provided by principal investigators;Small, large and custom scale production of adenovirus;retrovirus and lentivirus (2nd and 3rd generation packaging);TCID50 titration of adenovirus;Titration of retrovirus and lentivirus (fluorescence marker or antibiotic resistance);Test for replication competent virus (RCV) in lentivirus preparations.

**Synonyms:** Viral Vector Core

**Resource Type:** service resource, access service resource, core facility

**Keywords:** Viral, vector, development, production, angiogenesis, stem, cell, regenerative, medicine, renal, adenovirus, retrovirus, lentivirus, transfection, transduction, titration, service, core, ABRF

**Availability:** Open

**Resource Name:** Maine Medical Center Research Institute Viral Vector Core Facility

**Resource ID:** SCR_017882

**Alternate IDs:** ABRF_756

**Record Creation Time:** 20220129T080337+0000

**Record Last Update:** 20260804T043656+0000

## Ratings and Alerts

No rating or validation information has been found for Maine Medical Center Research Institute Viral Vector Core Facility.

No alerts have been found for Maine Medical Center Research Institute Viral Vector Core Facility.

## Data and Source Information
