Proper Citation: multcomp (RRID:SCR_018255)

Description: Software R package for simultaneous inference in general parametric models. Offers interface to perform multiple comparisons in general context. Simultaneous tests and confidence intervals for general linear hypotheses in parametric models, including linear, generalized linear, linear mixed effects, and survival models.

Resource Type: software resource, data processing software, data analytics software, data analysis software, software application

Keywords: Simultaneous inference, parametric model, simultaneous test, confidence interval, linear hypotheses, survival model

Availability: Free, Freely available

Resource Name: multcomp

Resource ID: SCR_018255
