University of Massachusetts Light Microscopy Core Facility

RRID:SCR_021148

Type: Tool

Proper Citation

University of Massachusetts Light Microscopy Core Facility (RRID:SCR_021148)

Resource Information

URL: <https://www.umass.edu/ials/light-microscopy>

Proper Citation: University of Massachusetts Light Microscopy Core Facility (RRID:SCR_021148)

Description: Core provides resources for imaging model organisms, tissue, cells, biomaterials, and artificial structures and houses equipment including almost every light microscopy imaging modality presently available. Cell culture facilities are also available nearby as well as other routine items necessary for biological imaging and material imaging. This facility has been designated Nikon Centers of Excellence, thus providing unique opportunity for training, demonstration, instrument development, and research. We excel in use of telemicroscopy through use of remote imaging sessions, remote control of all instruments, and remote data analysis sessions available to all users. Provides training to all users that plan to conduct experimentation. Following an initial consultation in which experimental requirements, expected outcomes, and careful scrutiny of feasibility, training and/or access is arranged through the Director.

Synonyms: UMass-Amherst Light Microscopy Facility, University of Massachusetts Amherst UMass-Amherst Light Microscopy Facility

Resource Type: core facility, service resource, access service resource

Keywords: USEDit, imaging model organisms, tissue imaging, cells imaging, biomaterials imaging, light microscopy imaging, ABRF, ABRF

Resource Name: University of Massachusetts Light Microscopy Core Facility

Resource ID: SCR_021148

Alternate IDs: ABRF_1170

Alternate URLs: <https://coremarketplace.org/?FacilityID=1170>

Record Creation Time: 20220129T080354+0000

Record Last Update: 20260801T191246+0000

Ratings and Alerts

No rating or validation information has been found for University of Massachusetts Light Microscopy Core Facility.

No alerts have been found for University of Massachusetts Light Microscopy Core Facility.
