Proper Citation: University of Montreal Structural Biology Platform Core Facility (RRID:SCR_022303)

Description: Offers access to several scientific instruments intended to answer structural biological questions for scientific community. Consists of high field nuclear magnetic resonance spectrometers (500 MHz, 600 MHz with cryo-probe and 700 MHz) controlled with recent NEO consoles from Bruker, small angle X-rays scattering (SAXS) instrument, with high throughput robotics. SAXS can be coupled to liquid chromatography system for SEC-SAXS applications. Other instruments include size exclusion chromatography system coupled to multi angle light scattering detector (SEC-MALS), isothermal titration calorimetry (ITC) instrument as well as several liquid handling robots for rapid bio molecular crystal preparation and screening. Users have also access to bio-informatics room with several Linux computers for data analysis. Personnel is available and will teach and support users on instruments, research consultation and turn key services are also available upon request.

Synonyms: Structural Biology Platform at the Universit? de Montr?a, UdeM-Structural biology platform

Resource Type: service resource, access service resource, core facility

Keywords: USEDit, ABRF, Structural Biology, nuclear magnetic resonance spectrometers, SAXS, liquid chromatography system, SEC-SAXS, SEC-MALS

Resource Name: University of Montreal Structural Biology Platform Core Facility

Resource ID: SCR_022303

Alternate IDs: ABRF_1363

Alternate URLs: <https://coremarketplace.org/?FacilityID=1363&citation=1>

Record Creation Time: 20220519T050142+0000

Record Last Update: 20260804T043737+0000

Ratings and Alerts

No rating or validation information has been found for University of Montreal Structural Biology Platform Core Facility.

No alerts have been found for University of Montreal Structural Biology Platform Core Facility.
