Proper Citation: MARIA (RRID:SCR_028673)

Description: Web multimodal recurrent neural network tool designed to predict HLA-II (Human Leukocyte Antigen class II) peptide ligand presentation. It uses cell HLA alleles, peptide sequences, and source genes to evaluate antigen presentation. Used for predicting the likelihood of antigen presentation from a gene of interest in the context of specific HLA class II alleles.

Synonyms: MARIA:Major Histocompatibility Complex Analysis with Recurrent Integrated Architecture

Resource Type: software resource, web application

Defining Citation: [PMID:31611695](#)

Keywords: multimodal recurrent neural network, predicting likelihood of antigen presentation, gene of interest, specific HLA class II alleles,

Funding: NCI U01 CA194389;
NCI K08 CA207882;
NIGMS GM 102365;
NCRR S10RR027431

Availability: Free, Freely available

Resource Name: MARIA

Resource ID: SCR_028673

Record Creation Time: 20260714T043827+0000

Record Last Update: 20260804T043938+0000
