Proper Citation: ProQuest Dissertations and Theses Global (RRID:SCR_000619)

Description: ProQuest Dissertations and Theses Full text is a comprehensive collection of dissertations and theses, as well as the official digital dissertations archive for the Library of Congress and the database of record for graduate research. PQDT Full Text includes nearly 3 million searchable citations to dissertations and theses available for download in PDF format. The database offers full text for most of the dissertations added since 1997 and strong retrospective full-text coverage for older graduate works. Full-text dissertations are archived as submitted by the degree-granting institution. Each dissertation published since July 1980 includes a 350-word abstract written by the author. Masters theses published since 1988 include 150-word abstracts. Simple bibliographic citations are available for dissertations dating from 1637. ProQuest Dissertations and Theses Full Text also offers researchers unlimited access to digital copies from their own institutions as well as affordable copies from others.
