bridge

RRID:SCR_001343

Type: Tool

Proper Citation

bridge (RRID:SCR_001343)

Resource Information

URL: <https://bioconductor.org/packages//2.11/bioc/html/bridge.html>

Proper Citation: bridge (RRID:SCR_001343)

Description: Software package to test for differentially expressed genes with microarray data. It can be used with both cDNA microarrays or Affymetrix chip. The package fits a robust Bayesian hierarchical model for testing for differential expression. Outliers are modeled explicitly using a t -distribution. The model includes an exchangeable prior for the variances which allow different variances for the genes but still shrink extreme empirical variances. The model can be used for testing for differentially expressed genes among multiple samples, and can distinguish between the different possible patterns of differential expression when there are three or more samples. Parameter estimation is carried out using a novel version of Markov Chain Monte Carlo that is appropriate when the model puts mass on subspaces of the full parameter space.

Abbreviations: bridge

Synonyms: Bayesian Robust Inference for Differential Gene Expression

Resource Type: software resource

Defining Citation: [PMID:16542223](#)

Keywords: cDNA microarray, affymetrix chip, differential expression, microarray, bio.tools

Availability: Free, Available for download, Freely available

Resource Name: bridge

Resource ID: SCR_001343

Alternate IDs: OMICS_01996, biotools:bridge

Alternate URLs: <http://www.bioconductor.org/packages/release/bioc/html/bridge.html>

License: GNU General Public License, v2 or newer

Record Creation Time: 20220129T080207+0000

Record Last Update: 20260905T132433+0000

Ratings and Alerts

No rating or validation information has been found for bridge.

No alerts have been found for bridge.
