PepBank Peptide Database

RRID:SCR_002086

Type: Tool

Proper Citation

PepBank Peptide Database (RRID:SCR_002086)

Resource Information

URL: <http://pepbank.mgh.harvard.edu/>

Proper Citation: PepBank Peptide Database (RRID:SCR_002086)

Description: A database of peptides based on sequence text mining and public peptide data sources. Only peptides that are 20 amino acids or shorter are stored. Only peptides with available sequences are stored. After submitting a query you can further refine the results using the new heat map retrieval tool to quickly find the entries that are most relevant to you. Text classification helps you find candidate peptides that are related to cancer, cardiovascular diseases, diabetes, apoptosis, angiogenesis and molecular imaging or peptides for which binding data exist.

Synonyms: PepBank

Resource Type: data or information resource, database

Defining Citation: [PMID:17678535](#)

Keywords: amino acid, blast search, peptide, sequence, smith-waterman search

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: PepBank Peptide Database

Resource ID: SCR_002086

Alternate IDs: nif-0000-20887

Record Creation Time: 20220129T080211+0000

Record Last Update: 20260912T200124+0000

Ratings and Alerts

No rating or validation information has been found for PepBank Peptide Database.

No alerts have been found for PepBank Peptide Database.
