Proper Citation: Nonhuman Primate HIV/SIV Vaccine Trials Database (RRID:SCR_002274)

Description: An overview of HIV and SIV vaccine trials and their outcomes. It was developed as a tool for compilation, search and comparison of published studies on SIV, HIV and SHIV vaccine trials in nonhuman primates. We used a set of criteria to scan Pubmed for relevant studies to enter into the database. In selecting studies for entry, priority was given to recently published studies in journals generally regarded as the primary source of information pertaining to HIV and SIV vaccine research in nonhuman primates. In most cases, we give priority to challenge studies, where the animals received a live virus to measure the "efficacy" of the immunogen(s) inoculated during the course of the investigation. The HIV Sequence Database focuses on five primary goals: *Collecting HIV and SIV sequence data (all sequences since 1987) *Curating and annotating this data, and making it available to the scientific community *Computer analysis of HIV and related sequences *Production of software for the analysis of (sequence) data *Publication of the data and analyses on this site and in a yearly printed publication, the HIV sequence Compendium, which is available free of charge

Synonyms: HIV/SIV Trials Vaccine DB, HIV/SIV Trials Vaccine Database

Resource Type: data or information resource, database

Keywords: drug, trial, vaccine, human immunodeficiency virus, simian immunodeficiency virus

Related Condition: Human immunodeficiency virus, Simian immunodeficiency virus

Funding: NIAID

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: Nonhuman Primate HIV/SIV Vaccine Trials Database

Resource ID: SCR_002274

Alternate IDs: nif-0000-20999

Old URLs: <http://hiv-web.lanl.gov/cgi-bin/vaccine/public/index.cgi>

Record Creation Time: 20220129T080212+0000
