Proper Citation: Pharmatching (RRID:SCR_003897)

Description: A matchmaker portal for the pharmaceutical industry worldwide offering a directory and contact platform. This includes a database of ten thousands of profiles of companies offering pharma services as well as a selection of companies including niche providers delivering the service of interest. The platform is used to search for human medicinal products, veterinary medicinal products, cosmeceuticals, nutraceuticals, medical devices, and diagnostics. The company's platform also enables users to post their service requests, service offers, and APIs/intermediates; and interact with other users. In addition, it offers advice and operational support services for outsourcing and inlicensing processes, such as strategic, scientific, and regulatory advice related to due diligence and decision making of research and development, sourcing, and M and A processes; conduct of third party GMP and pharmacovigilance audits; customized interim solutions; and qualified person functions for GMP and pharmacovigilance. The company also serves various sectors of the life science industry, such as contract manufacture, laboratory investigations and contractual testing, clinical research organizations and pre-clinical research organizations, consulting and legal counseling, logistics and distribution, education, marketing, IT, and investment and financing sectors; and small and medium enterprises/pharma, academic, public institutions, and freelancers. (Bloomberg Businessweek)
