ProFunc

RRID:SCR_004450

Type: Tool

Proper Citation

ProFunc (RRID:SCR_004450)

Resource Information

URL: <http://www.ebi.ac.uk/thornton-srv/databases/profunc/index.html>

Proper Citation: ProFunc (RRID:SCR_004450)

Description: The ProFunc server had been developed to help identify the likely biochemical function of a protein from its three-dimensional structure. It uses both sequence- and structure-based methods including fold matching, residue conservation, surface cleft analysis, and functional 3D templates, to identify both the protein's likely active site and possible homologues in the PDB. Often, where one method fails to provide any functional insight another may be more helpful. You can submit your own structure, analyze an existing PDB entry, or retrieve the results of a previously submitted run. The files are usually stored for about 6 months before being deleted. However, they are stored on a partition that is not backed up; so, in principle, they could disappear at any time.

Abbreviations: ProFunc

Synonyms: ProFunc - prediction of protein function from 3D structure, ProFunc: Analysis of a protein's 3D structure to help identify its likely biochemical function

Resource Type: analysis service resource, data analysis service, production service resource, service resource

Defining Citation: [PMID:15980588](#), [PMID:16019027](#)

Keywords: gold standard

Funding: DOE contract W-31-109-Eng-38;
NIGMS GM62414;
European Union FP6 contract LHSG-CT-2003-503265

Resource Name: ProFunc

Resource ID: SCR_004450

Alternate IDs: nlx_44430

Record Creation Time: 20220129T080224+0000

Record Last Update: 20260905T133124+0000

Ratings and Alerts

No rating or validation information has been found for ProFunc.

No alerts have been found for ProFunc.
