Google Code

RRID:SCR_005786

Type: Tool

Proper Citation

Google Code (RRID:SCR_005786)

Resource Information

URL: <http://code.google.com/>

Proper Citation: Google Code (RRID:SCR_005786)

Description: Developer tools, APIs and resources. Search developers.google.com and code.google.com.

Abbreviations: Google Code

Resource Type: software repository, software resource

Keywords: code, developer

Resource Name: Google Code

Resource ID: SCR_005786

Alternate IDs: nlx_149265

Record Creation Time: 20220129T080232+0000

Record Last Update: 20260905T133235+0000

Ratings and Alerts

No rating or validation information has been found for Google Code.

No alerts have been found for Google Code.

Data and Source Information

Usage and Citation Metrics

We found 452 mentions in open access literature.

Listed below are recent publications. The full list is available at [Kravitz](#) .

Dominguez RL, et al. (2024) Population-Based Study of Gastric Cancer Survival and Associations in Rural Western Honduras. *Cancer epidemiology, biomarkers & prevention* : a publication of the American Association for Cancer Research, cosponsored by the American Society of Preventive Oncology, 33(12), 1578.

Wren JD, et al. (2017) Use it or lose it: citations predict the continued online availability of published bioinformatics resources. *Nucleic acids research*, 45(7), 3627.

Schoebel CN, et al. (2014) Population history and pathways of spread of the plant pathogen *Phytophthora plurivora*. *PloS one*, 9(1), e85368.

Rozen-Gagnon K, et al. (2014) Alphavirus mutator variants present host-specific defects and attenuation in mammalian and insect models. *PLoS pathogens*, 10(1), e1003877.

Wilson G, et al. (2014) Best practices for scientific computing. *PLoS biology*, 12(1), e1001745.

Santhanam J, et al. (2014) Immune-mediated competition in rodent malaria is most likely caused by induced changes in innate immune clearance of merozoites. *PLoS computational biology*, 10(1), e1003416.

Hasmats J, et al. (2014) Assessment of whole genome amplification for sequence capture and massively parallel sequencing. *PloS one*, 9(1), e84785.

Wang Y, et al. (2014) Comparison of metatranscriptomic samples based on k-tuple frequencies. *PloS one*, 9(1), e84348.

Ansari MA, et al. (2014) Inference of the properties of the recombination process from whole bacterial genomes. *Genetics*, 196(1), 253.

Hennessey J, et al. (2014) Trends in the production of scientific data analysis resources. *BMC bioinformatics*, 15 Suppl 11(Suppl 11), S7.

Daunizeau J, et al. (2014) VBA: a probabilistic treatment of nonlinear models for neurobiological and behavioural data. *PLoS computational biology*, 10(1), e1003441.

Wang YZ, et al. (2014) Exploring candidate genes for pericarp russet pigmentation of sand pear (*Pyrus pyrifolia*) via RNA-Seq data in two genotypes contrasting for pericarp color. *PloS one*, 9(1), e83675.

Park S, et al. (2014) Aberrant CDK4 amplification in refractory rhabdomyosarcoma as identified by genomic profiling. *Scientific reports*, 4, 3623.

Shinzato C, et al. (2014) A snapshot of a coral "holobiont": a transcriptome assembly of the scleractinian coral, *Porites*, captures a wide variety of genes from both the host and symbiotic zooxanthellae. *PloS one*, 9(1), e85182.

Babur ??, et al. (2014) Pattern search in BioPAX models. *Bioinformatics* (Oxford, England), 30(1), 139.

Gillard GB, et al. (2014) The transcriptome of the NZ endemic sea urchin *Kina* (*Evechinus chloroticus*). *BMC genomics*, 15, 45.

Kellner N, et al. (2014) The SPF27 homologue Num1 connects splicing and kinesin 1-dependent cytoplasmic trafficking in *Ustilago maydis*. *PLoS genetics*, 10(1), e1004046.

Oktem IM, et al. (2014) Dobrava-Belgrade virus in *Apodemus flavicollis* and *A. uralensis* mice, Turkey. *Emerging infectious diseases*, 20(1), 121.

Zhang X, et al. (2014) Identification of three novel mutations in the FRMD7 gene for X-linked idiopathic congenital nystagmus. *Scientific reports*, 4, 3745.

Andor N, et al. (2014) EXPANDS: expanding ploidy and allele frequency on nested subpopulations. *Bioinformatics* (Oxford, England), 30(1), 50.
