## Cancer of the Prostate in Sweden (CAPS)

RRID:SCR\_006033

Type: Tool

### Proper Citation

Cancer of the Prostate in Sweden (CAPS) (RRID:SCR\_006033)

### Resource Information

**URL:** <http://ki.se/en/meb/cancer-of-the-prostate-in-sweden-caps>

**Proper Citation:** Cancer of the Prostate in Sweden (CAPS) (RRID:SCR\_006033)

**Description:** THIS RESOURCE IS NO LONGER IN SERVICE. Documented on May 3rd, 2023. We have completed the recruitment of this population-based prostate cancer case-control study, one of the largest prostate cancer case-control study populations available so far. This study population was recruited in two phases. The inclusion and exclusion criteria were the same for the first (CAPS1) and second phase (CAPS2), except for the timeframe. In total, 3,030 cases and 1,960 controls participated in CAPS donating blood samples and answering a questionnaire during 2001-2003. In addition we have detailed clinical information on all 3,000 cases. With data generated from CAPS we have 25 published papers and 10 manuscripts since 2004. During 2006 we completed a record linkage to the Cause of Death Registry to determine the cause of death for all participants. We could conclude that 347 of the cases in CAPS had died of prostate cancer. The CAPS study has provided data to several new studies on markers on prostate cancer progression. Sample types: \* EDTA whole blood \* DNA Number of sample donors: 5015 (sample collection completed)

**Abbreviations:** CAPS

**Synonyms:** KI Biobank - CAPS, CAPS - Cancer of the Prostate in Sweden, Cancer of the Prostate in Sweden

**Resource Type:** biomaterial supply resource, material resource

**Keywords:** cancer, prostate, questionnaire, population, cause of death, clinical information, male, man

**Related Condition:** Prostate cancer

**Availability:** THIS RESOURCE IS NO LONGER IN SERVICE

**Resource Name:** Cancer of the Prostate in Sweden (CAPS)

**Resource ID:** SCR\_006033

**Alternate IDs:** nlx\_151433

**Old URLs:** <http://ki.se/ki/jsp/polopoly.jsp?d=29332&a=23682&l=en>

**Record Creation Time:** 20220129T080233+0000

**Record Last Update:** 20260905T133236+0000
