Proper Citation: Interagency Modeling and Analysis Group and Multi-scale Modeling Consortium Wiki (RRID:SCR_008046)

Description: Special interest group that brings together program officers who have a shared interest in applying modeling and analysis methods to biomedical systems. The meetings are formatted to facilitate an open discussion of what is currently being supported, and for planning future directions in these areas. At each meeting, time is allotted to hear focused presentations from one or two participants to discuss issues relating to modeling and analysis across the government agencies. Discussions also occur online, and participants are informed of talks, conferences and other activities of interest to the group. IMAG recognized that the modeling community is on the forefront of thinking across the biological continuum, rather than just focusing at one scale or level of resolution. In addition IMAG identified a strong desire among modelers to form multi-disciplinary partnerships across varied research communities. Overall Intent of IMAG through the MSM Consortium is: * To develop new methodologies that span across biological scales * To develop multiscale methodologies applicable to biomedical, biological and behavioral research * To develop methodologies within the local multidisciplinary team and within the larger Framework environment * To further promote multiscale modeling through model sharing This wiki contains information relevant to the IMAG (Interagency Modeling and Analysis Group) and the MSM (Multi-scale Modeling Consortium).

Abbreviations: IMAG

Synonyms: IMAG wiki, MSM wiki

Resource Type: group

Keywords: environment, analysis, behavioral, biological, biomedical, continuum, modeling, research, scale, system

Funding: NIBIB ;
NIH Blueprint for Neuroscience Research

Resource Name: Interagency Modeling and Analysis Group and Multi-scale Modeling Consortium Wiki

Resource ID: SCR_008046

Alternate IDs: nif-0000-10261

Record Creation Time: 20220129T080245+0000

Record Last Update: 20260905T132617+0000

Ratings and Alerts

No rating or validation information has been found for Interagency Modeling and Analysis Group and Multi-scale Modeling Consortium Wiki.

No alerts have been found for Interagency Modeling and Analysis Group and Multi-scale Modeling Consortium Wiki.
