B Cell Interactome

RRID:SCR_008655

Type: Tool

Proper Citation

B Cell Interactome (RRID:SCR_008655)

Resource Information

URL: <http://wiki.c2b2.columbia.edu/califanolab/index.php/BCellInteractome.htm>

Proper Citation: B Cell Interactome (RRID:SCR_008655)

Description: A network of protein-protein, protein-DNA and modulatory interactions in human B cells. The network contains known interactions (reported in public databases) and predicted interactions by a Bayesian evidence integration framework which integrates a variety of generic and context specific experimental clues about protein-protein and protein-DNA interactions with inferences from different reverse engineering algorithms, such as GeneWays and ARACNE. Modulatory interactions are predicted by the MINDY, an algorithm for the prediction of modulators of transcriptional interactions (please refer to the publication section for more information). The BCI can be downloaded as one tab delimited file containing the complete network (BCI.txt) with each type of interaction explicitly defined.

Abbreviations: BCI

Resource Type: data or information resource, database, model

Defining Citation: [PMID:18277385](#)

Keywords: expression, generic, bayesian, b cell, dna, human, interaction, interactome, modulatory, protein, transcriptional

Availability: Available for download

Resource Name: B Cell Interactome

Resource ID: SCR_008655

Alternate IDs: nif-0000-33034
