Proper Citation: CTSpedia (RRID:SCR_008733)

Description: CTSpedia is a national effort to collect wisdom, tools, educational materials, and other items useful for clinical and translational researchers and to provide timely and useful advice to clinical and translational researchers with specific problems. The CTSpedia is a collaborative vehicle for the CTSA's Biostatistics/Epidemiology/Research/Design (BERD) Online Resources and Education taskforce to identify and share resources across the national consortium and community researchers world-wide. With the support of the national BERD consortia, the project obtained funding and support from the National Center for Research Resources (NCRR) to expand the original scope and content of CTSpedia and foster collaboration amongst CTSAs. The main goal of CTSpedia.org is to create a definable academic home on the internet for the discipline of clinical and translational sciences across the country and the world. * While the CTSA consortium serves the onsite physical level of the institutions involved, CTSpedia.org seeks to fill the gaps where the network is lacking, and to augment that network as the central hub for the peer to peer sharing of knowledge and resources. * While the CTSA national scope comes to fruition, the international scope of the consortia is more readily facilitated with an online resource like CTSpedia. * Utilizing the collaborative nature of the wiki-style website, CTSpedia.org allows for researchers anywhere in the world to ask questions and receive answers and related information in a timely and efficient manner, overcoming the logistical issues of distance and scheduling. * The streamlined availability of an online resource and knowledge repository will aid in addressing common issues that arise in clinical research, which will filter out consultation requests for minor questions, allowing for CTSA consultants to address more prevalent consultations.

Abbreviations: CTSpedia

Synonyms: CTSpedia: A Knowledge Base for Clinical and Translational Research, CTSpedia.org

Resource Type: data or information resource, knowledge environment, knowledgebase, narrative resource, software resource, training material, wiki

Keywords: clinical research, translational research, statistical tool, statistical graphic, presentation, graphic, discussion forum, dataset, ctsa, biostatistics

Funding: NCRR RR024146

Resource Name: CTSpedia

Resource ID: SCR_008733

Alternate IDs: nlx_143799

Record Creation Time: 20220129T080249+0000

Record Last Update: 20260905T132627+0000
