Proper Citation: Dartmouth Institute for Health Policy and Clinical Practice: Data and Analytic Core (RRID:SCR_009764)

Description: Core facility that provides the following services: Data and Analysis of large health care datasets.

The Data and Analytic Core (DAC) includes research analysts and programmers, research assistants, a data librarian, and a Director who reports to the Director of the Center for Health Policy Research and the DAC Advisory Committee. The DAC's responsibilities are to maintain an extremely secure environment for health care datasets provided to Principal Investigators by the U.S. Centers for Medicare and Medicaid Services, state governments, and other organizations under data use agreements and licenses. The DAC works under the direction of faculty investigators who have specific permission to use the data to conduct research. The DAC consists of 15 analysts (and an additional 5 staff) with a combined 150 years of healthcare claims analytic experience and a mastery of a broad range of programming and statistical methods. New analysts undergo a comprehensive training program lasting the better part of 6 months to assure a strong foundation in Medicare data analytics.
