Proper Citation: Library of Congress (RRID:SCR_011343)

Description: The Library of Congress is the nation's oldest federal cultural institution and serves as the research arm of Congress. It is also the largest library in the world, with millions of books, recordings, photographs, maps and manuscripts in its collections. The Library's mission is to support the Congress in fulfilling its constitutional duties and to further the progress of knowledge and creativity for the benefit of the American people. Thousands of dedicated staff acquire, catalog, preserve, and make available library collections within our three buildings on Capitol Hill and over the Internet.

Abbreviations: Library of Congress

Resource Type: institution

Resource Name: Library of Congress
