Proper Citation: American Association of Neurological Surgeons (RRID:SCR_013209)

Description: The American Association of Neurological Surgeons is dedicated to advancing the specialty of neurological surgery and serving as the spokes organization for all practitioners of the specialty of neurosurgery, in order to provide the highest quality of care to our patients. :Founded in 1931 as the Harvey Cushing Society, the American Association of Neurological Surgeons (AANS) is a scientific and educational association with over 7,400 members worldwide. The AANS is dedicated to advancing the specialty of neurological surgery in order to provide the highest quality of neurosurgical care to the public. All Active members of the AANS are board certified by the American Board of Neurological Surgery, the Royal College of Physicians and Surgeons of Canada, or the Mexican Council of Neurological Surgery, A.C. Neurosurgery is the medical specialty concerned with the prevention, diagnosis, treatment and rehabilitation of disorders that affect the spinal column, spinal cord, brain, nervous system and peripheral nerves. For more information on what neurosurgeons do, visit our public pages at : www.NeurosurgeryToday.org : : . Visitors to our Web site can find Member Counts under membership including demographic details.

Synonyms: AANS

Resource Type: professional organization

Keywords: human, neurosurgery, people, surgery

Resource Name: American Association of Neurological Surgeons
